

District #22 Program Dual Credit

Culinary Arts Program (Level 1 Technical Cook Training)

À

This program will allow secondary students to complete the first of three levels of technical training as part of an apprenticeship for Cooking. Traditionally, students begin an apprenticeship by being hired by an employer and then being registered as an apprentice. The Cooking apprenticeship is three years in duration and includes three four week sessions of technical training.

À

The Culinary Arts Program will allow secondary students to complete Level 1 Technical training while being registered as an apprentice with the Industry Training Authority. In addition, students will receive credit for both the apprenticeship program and the equivalent of four secondary courses at the grade 12 level. This Program is open to students in grade 11 and 12.

À

A work experience component will be included to allow students to gain additional experience and to connect with potential sponsor employers for apprenticeship training. Upon completion of the program students will have three options for further training:

1. Find work with an employer who is willing to register them as a work based apprentice.
2. Continue basic training through participation in the OC Entry Level Training Program offered at the KLO campus in Kelowna. Successful students will have the option of laddering into part of this 40 week program.
3. Continue apprenticeship technical training through levels 2 and 3 of the OC Culinary Arts Apprenticeship program once they are registered as an apprentice.

À
