

Gee

I think my one regret of global ed might be how much time we spent together. We never really sat down and had good talks or anything. And it makes me sad the course is almost over and we might never get to. But whenever I was around you I always had fun. I find that you are very easy to talk to and be around and the best thing is you don't ask tons of questions.

You can tell that you sincerely care about everyone in our class by the way ~~to~~ you treat and respect us. I never felt as though I was the student and you were the teacher. I just really want to thank you for everything you've done for me. You've given me so much opportunity and support through everything. Nicaragua touched me so much and you and Sarger gave ~~me~~ me opportunity to experience that. I don't really know how to express my gratitude, all I can say is thank you from the bottom of my heart. But that doesn't even come close to expressing how I'm feeling. But I just want you to know that you will always have a special place with and my memories of this class will last forever.

P.S. I know you've had your doubts about whether you're on the right path but don't worry about it, because you are.
