

Go Global!

Global Ed has been such an amazing experience for me. I can't possibly express how thankful I am to have had the opportunity to be in this class. There are so many moments I will never forget, like having a strange nickname given to me in a Nicaraguan trench or soaring down a bumpy road on the top of an old school bus. When I look back at my teenage life, these are the times I'll remember.

I know that the many lessons I've learned throughout this class will help me in whatever future challenges I come across. I really want to thank you, Mr. Sasges and Mr. Gee, for helping me discover the value I can add to a group and for showing me the exciting world that exists outside of high school. Thank you for awakening the Italian in me; life's so much more fun when you forget about what other people think and go with what feels right! I wish it wasn't over, but this class is really only the start of a much bigger adventure. Thank you so much for everything!

Bruiser (Laura)
