

Friends of Kidston Discovery Gardens

Kidston PAC Garden Committee welcomes you

Kidston School Goal:

We believe that children learn in a variety of ways and environments. Offering an outdoor space where students can explore with their senses and cultivate confidence through growing gardens and discovery has been a long dream at Kidston Elementary.

Our goal is to have a well utilized garden that enhances curriculum objectives for learning.

Classroom Goal:

To secure two or three adults per classroom to support their teacher in integrating the garden into their classroom curriculum.

What does this look like:

- This could be a one time project such as soil preparation or seed planting
- Regular weekly sessions with a designated class
- Cooking with a class or small group
- A special classroom project such as growing sprouts or microgreens
- Any time between April and end of June, summer months or the fall harvest

We respect your valuable time; what you are willing and able to offer our students and teachers is invaluable so please feel that any amount of time and service is appreciated.

Tell us a little about yourself

Name/ contact info: _____

Skill/job offered: Is there a specific teacher you'd like to assist?

Please let us know what you are offering to our Kidston Community in terms of time frame and services.

Availability: _____

Kidston Community thanks you so very much for extending yourself to our students and teachers, enabling a richer learning experience for all.

Alone we can do so little; together we can do so much~ Helen Keller

Growing together
