Visual Arts: Media Arts 12

The Visual Arts curricula for Grades 8 to 12 provide opportunities for all students to perceive, respond to, create, and communicate through images. The Visual Arts programs may present focus areas including art foundations, studio arts (painting and drawing, ceramics and sculpture, printmaking and graphic design, fabric and fibre), and media arts. Students learn to analyse and use a variety of techniques, design strategies, materials, and processes to create 2-D and 3-D images. They solve design problems considering the intended form and purpose of an artwork. Students identify characteristics of artworks from a variety of cultures and historical eras and incorporate selected elements into their own artworks to create effects or moods. Students apply safety and environmental considerations while creating their artworks. Visual arts programs also include investigation into visual arts and arts-related careers as well as the roles of artists and artworks in society.
