Course offering for vLearn, Vernon Virtual Education and the Alternate Learning Programs located at Open Door Education Centre, CrossRoads Learning Centre and Six Mile Education Centre:

ICT: Programming Essentials in Python 11

How great would it be to write your own computer program? Or, design a web or desktop application that millions of people could enjoy? Both are a possibility if you learn how to code in Python. Python is the very versatile, object-oriented programming language used by startups and tech giants, Google, Facebook, Dropbox and IBM. Python is also recommended for aspiring young developers who are interested in pursuing careers in Security, Networking and Internet-of-Things. Upon the completion of this course, you will be prepared to take the PCAP – Certified Associate in Python programming. No prior knowledge of programming is required.
