Montessori Elementary Program

“You immediately notice the feeling of calmness in the classrooms and the beautiful, natural materials that make their hands-on learning so engaging & impactful. We love seeing the independence and pride they develop in creating their work plans and diving deeper into their interests and strengths.”

-Vernon Montessori parent

Montessori nurtures each child's own curiosity, creativity and a lifelong love of learning.

The Montessori Program at Silver Star Elementary School

Classroom Community

The Montessori Program consists of students in grades 1 to 6. Students are in mixed-aged groups, typically three-year cycles, which helps children to solidify their learning. This also develops leadership, collaboration skills, and positive relationships.

Individualized Learning and Teacher-as-Guide

Montessori teachers observe each child, working as a guide to introduce children to the range of materials they need at just the right time. Montessori teachers hold a British Columbia teaching certificate and additional Montessori certification.

Independence and Self-Guided Learning

Students are encouraged to direct their learning, creating intrinsic motivation as they explore areas of interest at a deeper level. This approach also builds accountability as they plan and prioritize their daily learning tasks.

Natural, Specialized Montessori Materials

Children get excited about using the beautiful, specially designed Montessori materials to explore learning concepts in a hands-on way. Classrooms are carefully and sequentially prepared to engage and progress student learning.

This program of choice is offered by School District #22 (Vernon).

Program Entry: ***KINDERGARTEN (NEW!!) or GRADE 1 for the 2025/2026 school year!***

Registration is at Silver Star Elementary from Jan. 15-Feb. 15. Previous Montessori experienced students can enter at any grade level.

Parent donations and volunteer time will be requested each the year to support learning opportunities.
