

BOARD OF EDUCATION OF SCHOOL DISTRICT NO.22 (VERNON)

BOARD POLICY NO: 110

Strategic Planning	
Approval Date:	September 12, 1978
Amendment Date(s):	April 21, 2021, September 21, 2022
Reference(s):	<i>Ministerial Order 302/20</i>

PROPOSE TO REPEAL

The Board fully supports the mandate of the public education system for the province of British Columbia as expressed in the *School Act*, *Provincial Regulations*, Provincial Policies, *Orders in Council*, and *Ministerial Orders* and, further, is fully committed to the Calls to Action within the Canadian Truth and Reconciliation Commission framework.

The Board believes it is accountable for the quality, relevance, and accessibility of the educational programs in the district. We will foster inclusive learning environments where all students feel that they are safe and belong. We are committed to continuous improvement to support the highest possible levels of student success. Supporting this focus is a high level of communication and effective parent and community partnerships.

The Superintendent will support an ongoing approach to the Board's Strategic Planning processes which begins with the Board's Vision, Mission, Core Values, and Operational Priorities for the district. A high-level Strategic Plan will provide focus for the work of the district and all schools and departments will maintain service improvement plans aligned with it.

The Superintendent will support the Board with the collaborative process to create the Vision, Mission, Values, and Guiding Principles and with ongoing regular reviews of these and all other components of the Strategic Plan. All plans will be informed by current research and evidence-based practices.

The district Strategic Plan will be maintained to establish the direction for student learning and the resulting decision making and resource allocation for the district, as well as to report on student learning to the public and to the Ministry of Education and Child Care. There will be a regular schedule created for the formal review and updating of the district Strategic Plan.

The Board will make the district Strategic Plan and aligned school and department operational plans available on the district website.
