From: Archie Stogianos

Re: Closure of Playing Fields

Playing Fields closed to sports teams until further notice.

Due to seasonal weather conditions, the fields are extremely wet, unsafe and could be damaged if used in their current condition.

It is in everyone's interest to ensure that fields are not used when play damages the playing surface. In order to meet the demand for high quality fields and to ensure a safe playing field both weather and field conditions are regularly monitored to ensure they are not damaged.

Our grounds crew plans to proceed with an aggressive maintenance plan starting this spring. After consultation with the school administration, we may need to schedule field closures throughout the year.
