From : Mrs. Jacqueline Taylor, Principal
Re : Montessori Program, Grades K-6

Welcome to the Montessori Program at Silver Star Elementary. We are excited for your child's learning journey in this highly valued and regarding program.

It is important that parents/caregivers understand that upon registering in kindergarten or grade one Montessori Program, you are committing to a minimum of one year. If the decision is to not continue in the Montessori Program, you are to return to your catchment area school the following year.

When your child has completed grade six Montessori and is not living in the VSS catchment area (Hillview, BX and Silver Star), your child will be given the option to continue at Silver Star or have the option to go to their catchment school. This will depend on the current enrollment of Silver Star School's mainstream classes.

All Montessori students out of catchment will be attending their catchment school for grade 8 as VSS is currently closed to out of catchment students.

Please sign the bottom portion of this letter confirming that you understand the above.

Regards,

Mrs. Jacqueline Taylor
Principal
Silver Star School

Upon registering my child in the Montessori Program, I understand that if my child is out of the Silver Star catchment area my child is required to return to our catchment school in grade 8 or if we decide to exit the program at the end of the school year.
