Bursary
opportunities
SD22

With your help,
they succeed.

Many high school graduates cannot pay for their education.

Too many students cannot keep pace with the expenses of post-secondary education.

Those attending college face costs as high as \$5,000 for tuition and books per semester.

One year at an out-of-town university or college costs \$15,000 or more. Training programs also demand considerable expenses for tuition, equipment, tools, books, and living costs.

Summer jobs typically do not raise enough funds for school. In addition, many youth will not qualify for student loans. Very often, families cannot support their kids through the shortfall.

That's why SD22 scholarships and bursaries are so essential. Students need the support of the wider community through donors like you.

"I am extremely grateful to have been selected as the recipient of these awards. I am looking forward to the opportunities that this scholarship allows me. Thank you so much!"

Iseult Colclough, Graduate, WL Seaton, 2021

Will you be their cheering section?

By becoming a donor, you will be investing in the future prosperity of your community. It will also feel great to make a profound impact on a student's life!

Along with scholarships for academic merit, we are seeking your generosity for bursaries, which are based on need.

Bursaries make a massive difference for students who otherwise would struggle financially. In particular, we ask you to consider becoming a donor for bursaries with a focus on inclusion, the trades, the arts, and Indigenous students.
